TEXTILE WORLD

INDEX TO VOLUME 93

JANUARY to DECEMBER, 1943

McGRAW-HILL PUBLISHING CO.
Bragdon, Lord & Nagle Division
330 West 42nd St., New York

R v.93 Ja-De 1943

General Alphabetical Index

A

Alabama Cotton Manufacturers Association—Birmingham meeting (F)..May 95
American Association of Textile Chemists & Colorists Piedmont Section meeting (F) .....July 96
Intersectional contest (F).....Nov. 112
American Association of Textile Technologists Institute of Textile Technology delivers paper (F).....Dec. 101
American Cotton Manufacturers' Association meeting (F).....May 94
Aralac improvements reported by textile chemists at intersectional contest (F) Nov. 112
Aralac properties (table) (F).....Sept. 118
Aralac-wool blends (F).....June 98

C

Canadian Textile Society—Eastern Division discusses post-war changes in textiles (F) .....Apr. 96
Carded Yarn Association meets in Charlotte, N. C. (F).....Dec. 100
Cotton—cotton variety and yarn quality. G. W. Pfeiffenberger (F).....July 74
Flame cultivator used for cotton. Mildred G. Barnwell (F).....Aug. 90
Mechanical picker again (F).....Jan. 104

Cotton Manufacturing

A.C.M.A. meets in Atlanta (F)....May 94
Alabama Assn. meets in Birmingham (F) May 95
Adhesives in the mill. G. B. Cloran (F) Oct. 98
Air express in war-time.....Oct. 142
Air lift for folding machines.....May 97
Aprons for use on hopper feeders..Aug. 99
Assigning card-room jobs to women. E. H. Helliwell (F).....Mar. 62
Automatic controls speed up production. Fred Merish (F).....Oct. 76
Auxiliary cotton cleaning arrangement. Nov. 136
Ball bearing, high capacity.....Dec. 103
Battery filling technique. M. B. Jones (F) .....Aug. 85
Beaumont opens personnel building (F) Jan. 99
Bobbin cleaner .....Mar. 112
Bracket for cloth rolls.....Sept. 140
Breaking card room bottlenecks by better handling (F).....Feb. 132
British standard utility cloths (F)... June 86
Brushes for cleaning spinning and twisting rings .....Nov. 132
Calculating twist contraction.....Aug. 114
Callaway Research Institute, non-profit organization (F) .....Apr. 86
Camouflage and textiles (F).....July 68
Card-grinding intervals .....Aug. 115
Card speeds and yarn quality. Cook & Willis (F).....Dec. 89
Carded Yarn Association meets in Charlotte, N. C. (F).....Dec. 100
Chafing of two-ply cotton warp...Aug. 124
Chemically resistant cotton (F)...Aug. 85
Cleaning rings and rails.....Aug. 122
Clothing for women in men's jobs (F) June 99
Cloth-room equipment is effectively laid out. T. O. Ott, Jr. (F).....Apr. 82
Coated fabrics for variety of military uses (F) .....Sept. 92
Combers at Trenton cotton mills..Jan. 83
Comber waste and yarn quality (F)... July 89
Combination squeeze rolls and scutcher Dec. 103
Compensator gate for range operation. June 114
Coning operation hints.....Oct. 101
Constant speed and tension unwind and windup system .....Sept. 121
Continuous peroxide bleaching. Dehaven Butterworth (F).....Dec. 78
Cotton bale markers.....May 116
Cotton Textile Institute meets in New York (F) .....Nov. 110
Cotton variety and yarn quality. G. W. Pfeiffenberger (F).....July 74
Defects in cotton manufacturing..May 119
Detection of fiber damage by chemical and microscopic tests. Walter Krauss (F) .....Jan. 76
Determining and recording picker-lap weights. E. H. Helliwell (F)....June 131
Digest of government fabric specifications .....Feb. 86
Drafting operation should be studied. Robert Wentworth (F).....June 75
Effect of twist on contraction. A. J. Woodbury (F) .....Mar. 81
Electric tachometer .....May 99
Electronic timer for shear.....June 113
End breakage problem. McElroy & Gross (F) .....June 88
Extractor, continuous .....Sept. 121
Fabric-weight determinations. Leonard - Shapiro (F).....Oct. 87
Feeding unit to be used with opener.. July 97
Filling drawn into cloth.....July 128
Filling sloughs off.....Oct. 128
Filling stop motion adjustment....Nov. 132
Flameproofing cotton fabrics. W. W. Chase (F) .....Apr. 90
Folds in picker laps.....Sept. 156
Furring shuttles for rayon. Albert Rewdt (F) .....Dec. 94
Grading and storage cabinet for cotton yarn standards .....Nov. 138
Green River Mills remodels opener-picker room (F).....Mar. 84
Hank clock production constants determine final doff. McElroy & Gross Apr. 131
Harness stop-motion. John Sterk.... July 120
High-frequency drying equipment..Apr. 114
High-temperature hot-water heating in cotton dyehouse. P. L. Geiringer (F) Sept. 100
How many drawing processes? (F)... July 89
How to clean heddles.....Oct. 119
How to make up the loom book. Gunther & Gross (F).....Oct. 84
Humidifier as a production tool. Galson & Kempaner (F).....July 92
Imperfections in woven fabrics. Thomas Nelson (F) .....May 93
Infra-red drying of textiles. S. L. Grapnel (F) .....Aug. 94
Jacquard fabric defects. Thomas Nelson (F) .....Oct. 82
Jeans—constructions .....Aug. 115
Kier boiling cotton piece goods. A. C. Tate (F).....Aug. 91
Know your cotton spinning drafts. McElroy & Gross (F).....Aug. 86
Leather substitute .....May 98
Let's talk about twisters and ways to reduce waste. W. F. Crowder (F).. Feb. 111
Lighting recommendation for gray goods mill .....July 128
Locating faulty end at loom.....May 115
Long draft carding or spinning...Sept. 144
Loom slamming .....Sept. 143
Loom stoppages reduced by new method of control. A. R. Kandler (F)..Feb. 106
Loomfixers' manual. Ivar Moberg (F) Chapt. 2.....Aug. 98; Nov. 152
Maintenance of spinning frames (F).. Mar. 82
Maintenance of openers and pickers (F) Jan. 67
Making good warps.....Dec. 108
Making larger picker laps.....Dec. 121
Manual of military fabrics (F) pt. 1, poplin, Feb. 83; pt. 2, cotton twill, Mar. 72; pt. 3, cotton twill, Apr. 88; pt. 4, cotton twill, May 83; pt. 5, herringbone twill, June 94; pt. 6, textile finishes and 8.2 cotton twill, July 70; pt. 8, 9 oz. sateen, Sept. 94; pt. 9, cotton duck, Oct. 90; pt. 10, dyed numbered duck type 2.....Nov. 100
Mercerize—when to mercerize....Sept. 145
Mercerizing cotton piece goods....July 116
Mercerizing—a new approach. A. C. Tate (F) .....Apr. 84
Method of improving fabric break... Nov. 151
Mildewproofing Army fabrics. J. E. Goodavage (F) .....June 92
More sliver per can.....Sept. 144
Narrow loom for tubular fabrics..Feb. 115
National Assn. of Cotton Mfrs. meeting in Boston (F).....Oct. 73
Neps, naps and specks controlled. E. H. Helliwell (F).....Sept. 84
Newnan Cotton Mills tells of early days .....Apr. 152
North Carolina Cotton Manufacturer's Association meets in Charlotte, N. C. (F) .....Dec. 101
Oiling cotton at the picker. E. H. Helliwell (F) .....July 87
Outdoor conveyor, warehouse to opener room (F) .....May 80
Packaging cartons containing mosquito netting .....Aug. 100
Paper tubes .....Apr. 114
Parachute web testing machine...Oct. 100
Persimmon shuttles .....July 98
Picker-room lap-weight control. R. W. Mitchem (F) .....Mar. 86
Pneumatic set controller.....Nov. 130
Pneumatic stop-motion for frames..Oct. 99
Point system for grading fabrics. R. E. Spear (F).....Oct. 78
Post-war textile manpower plans developed by England. A. W. Williams (F) June 82
Post-war planning committees (F).Oct. 74
Power requirements for spinning (F).. Sept. 98
Preservative for cotton rope.....Mar. 98
Protecting drawn warps.....Sept. 140
Quality control charts aid textile manufacturers. A. G. Ashcroft (F)..Dec. 69
Railway sewing machine .....Dec. 103
Rake distributor .....Nov. 130
Relief estimates for United Nations are climbing. Gladys Montgomery (F).. Dec. 98
Roving frame design.....June 140
Roving frame of all-welded design... Mar. 95
Roving uneven .....Sept. 143
Serigraph for yarn strength more accurate than Lea. George West (F). May 88
Setting slub catchers.....Sept. 143
Shoe laces, braided.....Dec. 121
Shuttle, laminated .....Apr. 113
Single pick without pick-and-pick loom June 134
Size of hole in rubberized pickers..June 129
Slasher blankets .....Dec. 122
Slashing methods in sixteen mills (F) Dec. 72
Slubbing attachment .....June 114
Smoky yarn at spinning.....Dec. 121
Southern Combed Yarn Spinners Association meeting (F).....Oct. 79
Spinning rayon staple on cotton system (F) .....Jan. 97
Spinning 30s on fewer processes...Nov. 154
Spinning 30s cotton yarn.....Dec. 120
Squeeze roll extractor.....Apr. 113
Stick for boxing shuttles.....Dec. 112
Storing slasher rolls and cones...Aug. 118
Stripper for condenser.....Oct. 120
Styles for 1943 in cotton fabrics. H. E. Reed (F).....Jan. 72
Ten years of cotton-textiles (table)... Apr. 137
Tensioning top beams.....Oct. 128
Test gage holder.....Nov. 136
Textile mill activity levels off. D. G. Wolf (F) .....July 65
Thread accumulators, plastic.....June 113
Training learners for mule spinning with single-end machine. Ronald Jalbert (F) .....Sept. 139
Travelers for long-draft spinning..Oct. 126
Traveler life .....Dec. 121
Travelers unthread .....Jan. 102
Upgrading sequence for job classifications (F) .....July 60
Vertical beam storage.....May 116
War Manpower Commission completes study of cotton industry conditions. Gladys Montgomery (F).....July 64
Warpers, wartime maintenance (F)..... Dec. 86
Water bag for desert regions.....Nov. 147
Weave-room supply system. W. A. Newell (F) .....Apr. 80
Welded-steel drying cylinder.....Apr. 114
Why waste spinnable cotton? E. H. Helliwell (F) .....Nov. 90
Winding operation improved by paying more attention to the operatives and to machine upkeep. W. F. Crowder (F) .....Oct. 80
Women suited for doffing?.....Sept. 144
Wood stave rolls.....Apr. 115
Yarn numbers quickly determined by graphs. B. W. Wetherbee.....Jan. 98
Yardage on spinning bobbin.....Aug. 122
Yarns for weaving duck.....Apr. 133
Yarn strength factors. E. H. Helliwell (F) .....May 74

Cotton Textile Institute—New York meeting (F) .....Nov. 110

D

Defects

Acetate-viscose blend yarn is defective Sept. 154
Cotton manufacturing defects.....May 119
Defects in combination fabrics. A. C. Wayman (F) pt. 1, Mar. 78; pt. 2.. Apr. 94
Full-fashioned hosiery defects (F).Dec. 75
Holes in knitted fabric.....Aug. 115
Holes in rayon hosiery .....Jan. 102
Jacquard fabric defects. Thomas Nelson (F) .....Oct. 82
Military knit goods defects (F)..Apr. 106
Neps, naps and specks controlled. E. H. Helliwell (F).....Dec. 84
Overcoming resist spots.....Aug. 116
Rayon crepe defect.....Sept. 143
Seam marks in pad dyed lingerie fabrics .....Aug. 117
Streaks in mercerized hosiery.....Feb. 135
Warp knit glove defects.....Feb. 135
Woven fabric imperfections. Thomas Nelson (F) .....May 93

(F) indicates feature article (ed) editorials

Tech

Designing

Clothing for women in men's jobs (F). June 99
Cotton fabric styles for 1943. H. E. Reed (F) ....Jan. 72
Defects in combination fabrics. A. C. Wayman (F) pt. 1, Mar. 78; pt. 2.. Apr. 94
Life-history of the zoot suit. Dorsey Adams (F) ....Jan. 79
Simplification of textile fabrics and garments under way (F).....Jan. 68
Styling and designing consumer fabrics for post-war markets. T. O. Ott, Jr. (F) pt. 1, Sept. 79; pt. 2, Oct. 76; pt. 3, Nov. 98; pt. 4.....Dec. 90
Warp knitting today. W. C. Winkler (F) ....June 102

Dyeing and Finishing

Air conditioning systems in dyehouses protected with a plastic paint..Oct. 101
Automatic controls speed up production. Fred Merish (F).....Oct. 76
Bicarbonate used to treat textiles after boiling out. Dubeau & Vincent (F).. May 79
Burner for singeing....Aug. 100
Care of dyeing equipment.....Mar. 97
Chemical-resistant clothing .....Feb. 115
Chemically resistant cotton (F)....Aug. 85
Coated fabrics for variety of military uses (F) ....Sept. 92
Color guide ....Sept. 122
Combination squeeze rolls and scutcher Dec. 103
Computing pressure on padders....Dec. 154
Continuous dyeing of Navy fabrics (F) Jan. 80
Continuous indigo dyeing machines for woolen fabrics ....Mar. 95
Continuous peroxide bleaching. Dehaven Butterworth (F).....Dec. 78
Continuous process peroxide bleach.... Jan. 84
Drying attachment increases production ....Oct. 100
Dyes for printing actate rayon....Oct. 102
Emulsion stabilizer and penerating agent ....Mar. 98
Fading and aging lamp (F).....Nov. 130
Finish for camouflage nets.....May 102
Finishing 18-oz. green kersey for the Marines. David Welsh (F).....Mar. 70
Finishing 16-oz. Navy meltons. David Welsh (F) ....June 89
Finishing tricot fabrics.....May 119
Finishing worsted barathea. J. H. Stone (F) ....Oct. 89
Flameproof camouflage colors.....May 102
Flameproofing military fabrics. W. W. Chase (F) ....Apr. 90
Fulling and finishing of jersey knit goods ....Dec. 120
Glass tanks ....May 99
Handling chemicals safely (F) pt. 1, Sept. 102; pt. 2, Oct. 96; pt. 3...Dec. 102
Handling mildew-proofed burlap safely Nov. 134
Heat-reflecting metallic coatings give warmth without weight. Clifford Kirkpatrick (F) ....May 78
High-frequency drying equipment..Apr. 114
High-temperature hot-water heating in cotton dyehouse. P. L. Geiringer (F) Sept. 100
High-temperature hot-water heating in woolen dyehouse. P. L. Geiringer (F) Dec. 92
Infra-red drying of textiles. S. L. Grapnel (F) ....Aug. 94
Insect-repellant fabric finish developed by Germany ....Oct. 98
Instrument for measuring gloss..Sept. 122
Ion exchangers ....Mar. 96
Koroseal lining for tanks.....Nov. 130
Manual of military fabrics (F) pt. 6, textile finishes ....July 70
Mercerize—when to mercerize.....Sept. 145
Mercerizing—a new approach. A. C. Tate (F) ....Apr. 84
Mercerizing cotton piece goods....July 116
Mildewproofing agents ....Nov. 131
Mildewproofing Army fabrics. J. E. Goodavage (F) ....June 92
Overcoming resist spots.....Aug. 116
Oxidizing process saves time in vat dyeing (F) ....June 90
Plastic coatings in postwar era. J. B. Cleaveland ....May 59
Printing napped fabrics. Malcolm Mackay (F) ....Oct. 89
Printing troubles. Francis Newton (F) Mar. 80
Processing government fabrics discussed at A.A.T.C.C. meeting (F).....July 96
Salt damages brick wall in dyehouse.. June 129
Seam marks in pad dyed lingerie fabrics Aug. 117
Starch shortage creates problem (F).. July 80
Starch with unique properties....Nov. 131
Steel roll for cooling.....Dec. 104
Tall oil ....Nov. 131
Tiger stripes and Army socks (F)..Sept. 97
Tolerances for water impurities....Oct. 130
Vat dyeing of civilian fabrics. C. N. Rabold (F) ....Feb. 108
Vat dyeing OD Army underwear. O. W. Clark (F).....Apr. 104
Vat dyeing spun rayons (F).....Mar. 71
War's impact on techniques. W. W. Chase (F) ....Feb. 79
Water repellent finish.....Oct. 102
Water-repellent and mildewproofing compounds ....Mar. 98
Welded-steel drying cylinder.....Apr. 114
Wood stave rolls.....Apr. 115
Wool dyeing advances reported by textile chemists at intersectional contest (F) ....Nov. 112

E

Electronic adjustable-speed drive.....May 97
Electronic relay for stop mation. A. P. Mansfield ....Dec. 74
Electronic sewing machine.....July 97
Electronic timer for shear.....June 113
Electronic tube drives the Gremlins from your mill. A. P. Mansfield (F)..Mar. 66
Exports—England plans postwar export now. A. W. Williams (F).....Aug. 97
Lend-lease need is big but vague. Blaine Stubblefield (F).....Feb. 104
Relief estimates are climbing. Gladys Montgomery (F) ....Dec. 98

F

Fibers

Aralac (F) June 98, Sept. 118.....Nov. 112
Bagging from domestic flax. J. B. Hosmer (F) 104
Classification of man-made fibers.Apr. 137
Fiberglass properties (table) (F)..Sept. 118
Nylon, see Nylon
Peanut protein fibers, properties...Sept. 108
Properties of synthetic fibers (tables) Sept. 108
Saran, Velon, Permalon properties (table) (F) ....Sept. 115
Soy bean fiber, properties.....Sept. 108
Substitute fibers gaining knit goods leadership. W. B. Dall (F).....Apr. 100
Synthetic fibers for the post-war world. Woolf & Chase (F).....Sept. 105
Synthetic fibers from seaweed and mussel silk developed by Germany.. Oct. 98
Velon, properties of.....Sept. 115
Vinyon, properties of.....Sept. 115
Finishing—see Dyeing and Finishing
Fowle, Edwin D. becomes editor of Textile World (F).....Oct. 64

G

Georgia Cotton Manufacturers meeting (F) ....June 91
Germany—synthetic fibers from seaweed, mussel silk, insect-repellent fabric finish ....Oct. 98
Great Britain—new phase in concentration. A. W. Williams (F).....Jan. 70
Post-war export planned now. A. W. Williams (F) ....Aug. 97
War production can't be blitzed. J. T. Chirurg (F) ....Mar. 64

H

Hosiery

Are synthetics dooming the full-fashioned hosiery machine? Hughes, Miller (F) ....Aug. 74
Checking finished hosiery. Don Bradfield (F) ....July 86
Conveyors for yarn at May Hosiery Mills. Shepard Schwartz (F)...Oct. 92
Defects in full-fashioned hosiery (F).. Dec. 75
Dyeing of acetate full-fashioned hosiery tested by textile chemists, reported at contest (F).....Nov. 112
Fixers for hosiery machines. K. R. Barker (F) ....Mar. 109
Fixing hosiery machines—circular machines. J. W. Hughes (F)..chapt. 20, Apr. 112; chapt. 21, May 117; chapt. 18 and 21, July 117, Oct. 112, Dec. 97
Fixing hosiery machines—full-fashioned. W. A. Simond (F).....Jan. 101, Feb. 137, Mar. 111, Apr. 111; chapt. 20, Sept. 141; chapt. 21, Nov. 153
Handling acetate rayon in full-fashioned mills (F).....Apr. 107
Holes in rayon hosiery.....Jan. 102
Hosiery dyeing discussed at A.A.T.C.C. meeting (F) ....July 96
Knit goods for military purposes (F).. Apr. 102
Knitters essential, for soldier or civilian (F) ....Apr. 98
Month-end inventory simplified. Don Bradfield (F) ....Mar. 92
N.A.H.M. meets in New York (F).... May 94
Nu-Way toe closing method for hosiery (F) ....Nov. 93
Portioning hosiery yarns. K. R. Barker (F) ....Feb. 114
Post-war planning committees (F)..Oct. 74
Pre-boarding temperature for acetate hosiery ....July 115
Simplification program affecting hosiery is effective (F).....May 118
Socks, hose-tops and sweaters for military purposes (F).....Jan. 69
Southern Hosiery Mfrs. Assn. meeting (F) ....July 90
Static electricity neutralizer booster... Jan. 83
Storage of gray hosiery. M. M. Abrams (F) ....Jan. 78
Streaks in mercerized hosiery.....Feb. 135
Substitute fibers gaining knit goods leadership. W. B. Dall (F).....Apr. 100
Temperature and humidity requirements have changed due to use of new fibers (F).....Oct. 95
Throwing Bemberg hosiery yarn..Apr. 133
Throwing rayon for hosiery. C. W. Bendigo (F) ....Apr. 110
Tiger stripes in Army socks (F)..Sept. 97
Training new knitting employees. H. E. Reed (F).....Apr. 108

I

Infra-red

Applied to carbonizing. F. D. Snyder (F) ....Jan. 58
Boosts drying speed (F).....Jan. 56
Drying of textiles. S. L. Grapnel (F) Aug. 94
Gas-fired units (F).....Jan. 60
Infra-red data. F. A. McGlaughlin (F) ....Oct. 88
Wool carbonizing ....Mar. 112
Institute of Textile Technology—paper delivered before A.A.T.T. (F)...Dec. 101
Interdepartmental communication system of pneumatic tubes (F).....Aug. 96
Inventory methods simplified in hosiery mill. Don Bradfield (F).....Mar. 92

K

Knit Goods

Defects in military knit goods (F).... Apr. 106
Defect in warp knit glove.....Feb. 135
Digest of government fabric specifications ....Feb. 86
Dryer for knit goods.....July 97
Extractor, continuous ....Sept. 121
Finishing tricot fabrics.....May 119
Fulling and finishing of jersey knit goods ....Dec. 120
Holes in knitted fabric.....Aug. 115
Knit goods for military purposes (F).. Apr. 102
Knitters essential for soldier or civilian (F) ....Apr. 98
Knitting machine threader.....Nov. 134
Knitting O. D. mufflers.....Sept. 154
National Knitted Outerwear Association meeting (F).....May 94
New knitting industry in the making (F) ....Apr. 97
Rough knitting needles.....Sept. 156
Scouring knit goods.....Oct. 126
Socks, hose-tops and sweaters for military purposes (F).....Jan. 69
Squeeze roll extractor.....Apr. 113
Substitute fibers gaining knit goods leadership. W. B. Dall (F).....Apr. 100
Tickle in wool knit goods. A. F. Barker (F) ....May 90
Training new knitting employees. H. E. Reed (F).....Apr. 108
Vat dyeing OD Army underwear. O. W. Clark (F).....Apr. 104
Warp knitting today. W. C. Winkler (F) ....June 102

L

Linen—bagging from domestic flax. J. B. Hosmer (F).....June 104
Loomfixers' manual—cotton section. Ivar Moberg (F).....Chapt. 2, Aug. 98; Nov. 152
Rayon and silk section. H. E. Wenrich (F).....chapt 7, Feb. 136; chapt. 8, Apr. 136, June 110, Dec. 96
Wool section. E. P. Schremp (F) chapt. 14, Jan. 100; chapt. 15, Mar. 110, May 96, July 118; chapt. 16, Sept. 142, Oct. 110

M

Machinery—war work drops machine sales (F) ....Feb. 77

Maintenance

Air conditioning systems in dyehouses protected with a plastic paint...Oct. 101
Aligning, shaft coupling.....Feb. 115
Belt maintenance. Fred Merish (F).. Apr. 92
Belt salvage ....Jan. 84
Bibliography of maintenance articles.. Jan. 85
Blackboard in department gives necessary details ....Dec. 110

(F) indicates feature article (ed) editorials

Bushing holes with sheet lead....Jan. 96
Care of magnesium warp beams...Feb. 117
Catalog file suggestion.....Dec. 110
Cementing woven cotton belting..July 99
Centrifugal boiler feed pump care.... Jan. 84
Centrifugal pump maintenance schedule Aug. 102
Chain drives kept in order.....Oct. 102
Check your motor horsepower....Feb. 116
Clean floor is a safe floor. Dr. R. W. Mitchell (F) .....Oct. 86
Diagonal blade screwdriver. W. A. Simond .....Oct. 120
Fire hose should have proper care.... Apr. 116
Foxholes in your floor.....Sept. 124
Good lubrication prevents fires and improves production. R. G. Shepherd (F) .....Dec. 76
Handle your thermometer carefully.. Aug. 101
Hose coupling easily made.....July 126
How to keep your valves working.... Mar. 97
How to set brush holders.....June 115
Inspect your electric motors.....July 102
Keep oil where it belongs.....Sept. 126
Leather belt care.....June 116
Lubricating anti-friction bearings..Aug. 118
Lubricating mops reduce machine wear Dec. 110
Lubrication—chart showing correct ranges and types of oils and greases (F) .....Nov. 126
Machine repairs .....July 120
More production from present electrical equipment .....Apr. 115
Motors kept running by preventive maintenance. Linsenmeyer & McCullough (F) .....Aug. 65
Motor maintenance .....Oct. 101
Motor maintenance record card....Mar. 97
Oil circuit breaker maintenance...July 99
Oiling equipment for bearings and belts Oct. 99
Old roving cans make trash receptacles Aug. 120
Opener and picker maintenance (F).... Jan. 67
Paint for wet surfaces.....Mar. 96
Painting (F) .....Nov. 128
Plier for small pins.....Aug. 120
Polishing shuttles .....June 132
Protect your equipment from water damage .....Dec. 105
Protective coating .....Aug. 99
Reconditioning worn pump shafts..Apr. 116
Reed rubbing tool.....July 124
Relocating equipment (F).....Nov. 124
Removing stains from stainless steel.. Aug. 122
Removing tight cotter pins.....Dec. 106
Repair winder spindle.....Sept. 140
Replacing special bolt. H. R. Wing... June 138
Rope care .....June 116
Roving truck .....Jan. 96
Rubber glove care.....Feb. 117
Shop-made cleaning brush.....May 116
Spindle care and maintenance....June 115
Spinning frame maintenance (F)..Mar. 82
Steam hose maintenance.....Aug. 101
Steam trap maintenance.....July 102
Steam trap performance improved.... Mar. 98
Substitute for tin-base babbitt....Dec. 105
Surface hardening stainless steel parts Oct. 99
Tool cabinet .....Mar. 108
Tools from spindles.....July 122
Transformer maintenance. M. H. Bates (F) .....June 106
Twisters, maintenance of.....May 100
Valves, globe, made to last longer.... Dec. 104
V-belts put in service.....Oct. 102
V-belts should be rolled over the sheave by hand .....Sept. 124
Vibrator lifter. Fred Greenwood..Aug. 116
Warpers wartime maintenance (F).... Dec. 86
Water-treatment plant maintenance. Hudson Nix (F).....Apr. 134
Welded-steel drying cylinder.....Apr. 114
Welding. F. A. Westbrook (F)....Nov. 122
When steam traps fail to operate..Dec. 105
Wooden blocks save drill press....Jan. 96
Woolen mill maintenance. F. A. Westbrook (F) .....June 96
Work bench, portable.....Nov. 134

Management

Labor-Management Committees at Avondale. Dunn & Asbury (F)...Dec. 67
Labor-Management Committee backed up by Washington. Gladys Montgomery (F) .....Dec. 64
Labor-Management Committees—thirty textile mills experiment with committees (F) .....Dec. 64
Move to prevent clothes rationing. Gladys Montgomery (F).....Aug. 72
Should Bill go over the boss's head? (F) Oct. 94
Some tips for those who handle men. E. H. Helliwell (E).....Mar. 60
